

# Summer of Hope

Your generosity can send a Slavic child to summer camp, where hope, joy, and new connections await.

# Help us reach our goal of sending 12,000 kids to summer camp

Since the Slavic Gospel Association began helping children go to summer camps, over 77,500 young lives have been impacted at 1,056 different locations. This marks an incredible **14% increase in attendance from 2023**, showing the growing demand for this life-changing opportunity. Many children attending these camps come from challenging circumstances and have little control over their situation. For them, these camps provide a rare and special chance to experience not only the beauty of nature but also the love of God in a personal way. In total, more than 50,000 campers have heard the Gospel for the first time, with 15,816 of them choosing to accept Jesus Christ as their Savior.

The influence of these camps continues well beyond the summer season. As a result of their experiences, 9,025 children are now attending Sunday school programs at local churches each week. From a river rafting adventure to campgrounds nestled by lakes and forests, the locations vary, but the goal remains the same: to offer children a transformative week that could change their lives forever. Your support helps make this possible, ensuring that even more children can attend and experience the hope, joy, and love that these camps offer. Together, we can continue to make a lasting impact and share the Gospel with children across the Slavic world.

\$74

will send a child to summer camp for a whole week.
